

Cover Letter

TD Bank
Kew Gardens, NY

To whom it may concern,

I'm writing to you to express my interest in the TD bank teller position you have open. I found this internship while looking for internships that can diversify my resume. I'll be graduating City College with a Bachelor's degree in Business with a concentration in Financial Economics. I feel as if I am qualified because my experience and skill set would be an ideal match for this position. I am also willing to stay or relocate to any location.

I offer great communication skills and knowledge of knowing how to work as a team. In my previous position, I worked with the development and marketing team to handle over \$1 million in funding. While working as an instructor for several tutoring centers, I have exceeded expectations by completely changing their teaching curriculums and bringing in more customers. Over the summer I intend to learn python so I can supplement my IT experience.

It is unusual to put this in a cover letter; however this is an important part of me. I wish to prove myself different from other candidates and prove why this position is so important to me. My family is made up on immigrants and my upbringing is not wealthy nor is it even well-off. However I have always been an empathetic person and I know there are people in the world so much less fortunate than me, including the family I have back in Bangladesh. Over and over again, I have learned that the way to get ahead in this world is to work hard and put yourself in a position of power and success, while having the ambition to improving yourself. Only once you're in that position, do you truly have the power to help others. I believe this position is the key to that.

I am sure that my experience in previous positions, qualifications, and ambition would make me the perfect candidate for this internship as well as the ideal resource for your company. Please contact me at my number to schedule an interview if you feel if I make a good fit. I look forward to hearing from you.

Sincerely,
Jitu Rahman
